

It is outrageous  
that Sinclair  
Broadcasting has  
decided to force  
their stations to  
air an anti-Kerry  
documentary days  
before the election!

The public airwaves  
are free of charge  
to Sinclair, with a  
concomitant  
responsibility to  
serve the public  
good, especially  
when it comes to  
matters of  
democratic  
processes.

Sinclair's actions  
show arrogance and  
disrespect for the  
communities its  
serves, which is why  
media ownership  
rules need to be  
strengthened, not  
weakened.

I intend to follow  
this issue closely  
because I feel the  
great experiment  
that was American  
democracy is in  
danger of failing  
because of  
greed-driven  
corporate  
manipulation, which  
this represents in  
my opinion.

Thank you
